The two diversions around parts of the course suffering from erosion caused by previous races, that's us, probably increased times by approximately 5 mins. On a clear day the new site for CP1 can be seen from the old one but unfortunately the cloud cover was particularly dense and ruled that advantage out. Big response for entries on the day, the £10.00 entry fee was introduced as a deterrent but still gives people a last minute chance to take part but at a cost. It does not seem to bother many so perhaps I will increase it by another £5.00 for next year and hope it encourages more pre entries. See the FRA Calendar.

I have also been reviewing and taking numerous comments and advice into consideration concerning the 12:30pm cut off at CP4.

Next year it will be reduced to 12:15pm assuming the race starts on time. In other words 1 hour 45 mins to get there. I estimate this will result in a 4 hour 30/40 min completion time. The toughest part of the race begins at CP5 and if we have bad weather on the day the moor after CP8 always seems to get it bad and there's still another climb to come. My concern is for the runners but also the Marshalls, the temperature and wind speed were reasonable but it was raining and when you are standing about in it for hours it gets through. Some of them did not get back to registration until after dark, the finish Marshalls were still outside as well. No complaints, only "See you next year" but we cannot just keep pushing their generosity. This race relies heavily on Marshalls and I have to consider them as well. So next year the new cut-off time will be rigidly enforced.

The commemorative race plaque was won by Andrew Robinson of CleMH.

Lost property: Well I've got loads; 2 jackets, 4 or 5 hats, 2 pairs of gloves and 2 or 3 odd ones, a compass, a drink bottle, a blue bath towel and I kid you not, a 265MB memory stick from a digital camera, that must be a first. Please give me a ring if you think any of this is yours.

All the best for Christmas and the New Year. Kieran & Doreen.
