Congratulations to John and Lynne, the winners of this years race. Best performance this year was by Malcolm Coles of Valley Striders first V70 and he knocked a massive 24min 27secs off the V70 record which was 8 years old. Weather was a bit tough, with a wind, sleet and rain but visibility clear all through the race. The early start for slower runners attracted 75 runners I expected approx 20 and it created unforeseen problems with the formulation of the results after the race, so much so we just concentrated on identifying the prize winners and the distribution of prizes. We were an hour late, apologies and thanks for your patience to all who waited. I've thought a lot about the early start since race day, it was aimed at slower runners, the last 20 or so and it was a success as far as they where concerned, the last 12 were all early starters and the last one finished at 3:10pm. We had 3 sweepers, so all the marshalls were well on their way back before 3pm. Still not sure about doing it again next year though. A runner told me he picked up 5 wrappers from Gels, all in the first part of the race, all you needed to do was carry it to the next marshall he would have taken it. The dropping of litter cannot be tolerated, if you cannot cope with that do not enter, mine went down my vest and in the bin when I finished. Thanks to all the marshalls, those at registration and the finish, time keepers, number takers and road crossings.

All the best for Christmas and the New Year. Kieran & Doreen.

The "Actual Race Time" is the "Time recorded at finish line", plus the difference in time of the two starts, which was 35min 17sec.

Using each runners "Actual Race Time" I then slotted them into the race results.
