Congratulations to the winners Carl and Nicky, hope you come back next year. Also to Jackie (Winn) he knocked 49secs off the V60 record I know the course was slightly shorter this year but it would still be a faster time over the old course.

As always my thanks go to the marshals on the course and all at the start and finish, The change from tags to noting numbers put pressure on the marshals at the earlier CP's when the gaps between runners were still close, so I will have to have a think about it for next year. I just don't have enough tags for the numbers that enter the race and the minimum quantity you can buy is just not practical. That also has its failings.

When I got up on race day Pendle was cloud covered down to the fell wall but as forecast, it cleared and kept dry. Hope you managed to raise your head and take in some of the fantastic views. The west wind on my back pushing me to the finish was a comfort. Hope you approved with the new starting and finishing place, it's a lot safer, not sure why it never dawned on me before, it's used for the Pendle Fell. We were fortunate again with the weather this year but must not forget this is an AL race in mid November and bad weather is common on Pendle with icy winds, sleet and dense cloud cover. My words again from last year's results. I was on the hill 2 weeks before the race and we had sleet.

In last year's notes I said I would reduce the cut-off time at CP4 to 12:15pm, I published info with 12:15 on and also 12:30, so I had to stick to 12:30pm. The start time was delayed by nearly 10mins so that reduced the running time for slower runners and I am well aware of it and thinking about it. The toughest part of the race is approx 2 miles away from CP4 and the last of the 3 climbs is tough.

Next year's race will be a week later on the 23rd November, to coincide with CleMH hosting the "FRA Do". It's at a great venue, hope they book a live band and not just a disco. It will be a good opportunity for a long post race natter. Please make cheques out to: "Tour of Pendle", not me.

Lost property: I have 3 gloves, all black. One is an "outdoordesigns, hardface polartec", looks new. The others a pair; "karrimor, thermal". If they are yours, please give me a ring and I'll get them back to you. I will keep them for 3 months.

Anyone getting near to 21 races?

Hope you had a safe journey home and are injury free. All the best for Christmas and the New Year. Kieran
