108	Tim Jenner OR Paul Hodgson		M/M	2:12
Retired	Robert Moore	u/a	MV40	
Retired	Tim Blackwell	Chorlton	MV40	

**NOTE Re: Positions 40 and 108**

Many apologies that I'm not sure which way round these were. The finish line recording sheets suffered a little in the rain despite the brilliant job done by the marshals on the line!

**NEXT TIME YOU RACE IN BAD WEATHER...**

...Please, please ensure that you actually show your number to the marshals even if this means that you have to slow down to do it. They shouldn't have to shout after you to get you to do this. The system is designed to keep you safe not to inconvenience you. And if you're that good, you'll make up the 3 seconds really easily☺ but the marshals don't get a second chance to look at your number. It's a little thing but makes the difference between a good day out and a stressful day out for the marshals.

**FINAL NOTE**

Huge thanks to Robert Moore and Tim Blackwell who decided to retire and came back to the start/finish to let me know. Very much appreciated!
